Title: METHODS FOR IDENTIFYING THERAPEUTIC TARGETS
FOR TREATING INFECTIOUS DISEASE

RESPONSE TO REQUIREMENT FOR RESTRICTION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

RECEIVED
SEP 23 2003
TECH CENTER 1600/2900

Dear Sir:

This Paper is submitted in response to the Requirement for Restriction issued by the U.S. Patent and Trademark Office on April 14, 2003, in connection with the above-identified application. A response to this Notice was due one month from the date of issuance, *i.e.*, on or before May 14, 2003. Enclosed herewith is a Petition for a Four Month Extension of Time along with authorization to charge the extension fee to the undersigned's Deposit Account. In view of the filing of the Petition and payment of the fee, a response is now due September 14, 2003. Accordingly, this Response is timely filed.

REQUIREMENT FOR RESTRICTION

The Examiner required restriction among the following allegedly independent and distinct groups:

- I. Group I, claims 1-6, drawn to a method for inhibiting the proliferation of a pathogen or a cell infected with a pathogen, classified in class 514, subclass 2. If this Group is elected, then three of the summarized specie election are required.
- II. Group II, claims 7-17, drawn to a method for screening for a therapeutic agent that selectively inhibits the growth of pathogen or a pathogen-infected cell, classified in class 424, subclass 9.2. If this Group is elected, then three of the summarized specie election are required.
- III. Group III, Claims 18-67, drawn to a method, system, and computer program product for identifying drug targets, classified in class 702, subclass 19. If this Group is elected, then two of the summarized specie election are required.
- IV. Group IV, Claims 68-74, drawn to a method for alleviating symptoms of a disease, classified in class 514, subclass 2. If this Group is elected, then two of the summarized specie election are required.
- V. Group V, Claims 75-81, drawn to a method for treating an infection caused by iECTA enzyme expression, classified in class 514, subclass 2. If this Group is elected, then two of the summarized specie election are required.

For the sake of brevity, the species summary is not reproduced in this paper.

Applicants hereby elect with without traverse to prosecute the invention of Group III, claims 18 to 67. With respect to the species election, Applicants further elect the target organism bacterium (species I) and the FAST algorithm (species P).

In the unlikely event that the transmittal letter is separated from this document and/or the Patent Office determines that an extension and/or other relief is required, Applicants petition for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to

Deposit Account No. 50-2518, billing reference number **70083922001**. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Respectfully submitted,

Date: September 11, 2003
